illustrated explanation history and chinese cultural notes plus screensavers themes and wallpaper Tao Te Ching:

110 of 115 review helpful Just breathe By Rosh As with so many books we endure the scholarly and erudite reviewers who claim to know which text and translation is the most recondite the most accurate the most true to the original I don't know about all that I know Lao Tzu was so important to Asian culture and life and I know this book makes me feel whole again with each reading I slow down and his true words align. Traditionally attributed to Lao Tzu an older contemporary of Confucius 551-479 BC it is now thought that the work was compiled in about the fourth century BC. An anthology of wise sayings it offers a model by which the individual can live rather than explaining the human place in the universe. The moral code it encourages is based on modesty and self-restraint and the rewards reaped for such a life are harmony and flow of life. For more than seventy years it would be hard to find a fresh approach to a text that ranks only behind the Bible as the most widely translated book in the world but Star achieves that goal. As fascinating to the casual scholar as it is for the serious student. NAPRA ReView
